

## Fabric Report Holy Trinity 2018

I can report that the Fabric, Goods and Ornaments are all satisfactory. Since the Autumn of last year we have sent letters to local trades people to give us some idea of what costs are likely to be for work that needs to be done from the last Quinquennial report. Sadly the cost of having this work done is £50,000 plus VAT.

The Church heating system is working well; we have had no problems with it during the last year.

We need another work day in the not too distant future, with the shed roof to repair, general tidy up and may be a good spring clean in Church. That is not to say that the cleaners have not done their job; it is places which are hard to get at and need a way which is safe to tackle the higher parts of the Church, cob webs etc.

The dormer windows of the Church will need repainting and, looking from ground level, they seem to be in a satisfactory order, but this work needs to be done in the not too distant future.

Reg Haydon, Warden
